

## Video Collaboration

The below list includes locations of our video conferencing systems and points of contact who are able to assist with scheduling a meeting or answering questions. If technical difficulties persist, please note that there is a separate Telepsychiatry and video conferencing help phone line at (410) 328-2479, or 8-2479 for internal campus calls. This new line is only for conferencing and TelePsychiatry video questions. For IS help other than video conferencing issues, please continue to put in service requests at <http://psychis.umaryland.edu>. Thank you!

Location	POC Name	Phone	Email
