On-site Registration Fee: $250.00 (cash/check only)

Registration is required: https://umaryland.cloud-cme.com/default.aspx?P=0&EID=10119&formid=1404

Parking: There will be free garage parking for attendees at the Lexington St. Garage, located at 660 W. Lexington St, Baltimore MD, 21201.

About the Course: The Radiation Oncology Symposium Best of 2019 will provide the attendees with the new changes in technology and treatment modalities that have occurred in the past year. This includes the latest developments in treating the following cancers: genitourinary, head & neck, central nervous system/pediatrics, gynecologic, gastrointestinal, breast, thoracic/SBRT and lymphoma.

Target Audience: The Radiation Oncology Symposium Best of 2019 is designed for radiation oncologists, radiation therapists, medical oncologists, hematologists, nurse practitioners, medical physicists, dosimetrists, physician assistants and nurses.

Learning Objectives: Upon completion of this activity, participants should be able to:

- Describe current treatment options for various malignancies.
- Assess important studies and clinical trials in radiation oncology.
- Review the role and indications for radiation therapy.

CME Sponsorship: Sponsored by the University of Maryland School of Medicine

Accreditation: The University of Maryland School of Medicine is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

Credit Statement: The University of Maryland School of Medicine designates this Live activity for a maximum of 4 AMA PRA Category 1 Credits™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

ADA Statement: If you require special accommodations to attend or participate in this CME activity, please provide information about your requirements to Senior Program Coordinator, Jessica White, at (410) 328-7618 at least five business days in advance of the activity.

Disclosure of Financial Relationships: It is the policy of the University of Maryland School of Medicine to ensure balance, independence, objectivity, and scientific rigor in all of its educational activities. In accordance with this policy, all persons in a position to control the educational content of this activity must disclose any relevant financial relationships they have with commercial interests. Any identified conflicts of interest must be resolved prior to the speaker’s presentation. Specific information regarding the existence or non-existence of financial relationships among all those in a position to control activity content will be presented to participants in course materials prior to the start of the educational activity.

Discussion of Off-Label or Investigational Uses: Presentations in this continuing medical education activity may contain references to unlabeled or unapproved uses of drugs or devices. The audience is advised to consult the full prescribing information of all drugs or devices prior to use. Some drugs/devices identified during this activity may have United States Food and Drug Administration (FDA) clearance for specific purposes only or for use in restricted research settings. The FDA has stated that it is the responsibility of the prescribing health care professional to determine the FDA status of each drug or device that he/she wishes to use in clinical practice, and to use the products in compliance with applicable law. UMSOM requires that all contributors disclose any unlabeled use or investigational use (not yet approved for any purpose) of pharmaceutical and medical device products and provide adequate scientific and clinical justification for such use. Physicians and other healthcare professionals are urged to fully review all the available data on products or procedures before using them to treat patients.

Disclaimer: This CME activity is designed for use by healthcare professionals for educational purposes only. Information and opinions offered by the contributors represent their viewpoints. Conclusions drawn by the participant should be derived from careful consideration of all available scientific information. Prescription information and use of medical devices should be undertaken only after confirmation of information by consulting the FDA-approved uses and information. While UMSOM makes every effort to have accurate information presented, no warranty, express or implied, is offered with respect to the information presented. Each participant should use his/her clinical judgment, knowledge, experience, and diagnostic decision-making before applying any information provided in this CME activity.

Acknowledgment of Commercial Support: UMSOM will execute educational grant agreements with all commercial interests providing financial or in-kind support for the activity. A complete listing of these commercial entities will be provided to participants in course materials prior to the start of the educational activity.
