

SELF-REPORTED NEWS from the SCHOOL OF MEDICINE COMMUNITY

Events, Lectures & Workshops

Kudos to our colleagues who are experts in their fields and give their all to represent the School of Medicine!

► The **Department of Obstetrics, Gynecology and Reproductive Sciences**, hosted its Fetal Heart International Symposium and Hands-On Learning, April 25–27, 2019.

► The **Graduate Research Conference (GRC)**, which is hosted annually by the Graduate Student Association of the University of Maryland, Baltimore, was held on Friday, March 15 at the SMC Campus Center. The GRC provides students and postdoctoral fellows with the opportunity to present their research to the campus community. Representing the Department of Physical Therapy and Rehabilitation Science were PhD Students: **Raziyeh Baghi**, **Brian Johnson**, and **Kelly Rock**. They presented “Ultrasonic Measurement of Gastrocnemius Biomechanical Properties During Stepping on an Elliptical Trainer: A Case Study,” “Exploring Postural Control During Walking and Running in Acute Lymphoblastic Leukemia Childhood Cancer Survivors (ALL CCS),” and “Acoustic Stimulation During a Daytime Nap to Enhance Sensorimotor Skill Performance in Older Adults with and without a History of Stroke,” respectively.

Odessa Addison, DPT, PhD

► **Odessa Addison, DPT, PhD**, Assistant Professor, Department of Physical Therapy and Rehabilitation Science, participated in the U13 Bench-to-Bedside Osteoporosis & Soft Tissue (Muscle/Fat) Disorders workshop, which was held in Bethesda, Md., March 11–12, 2019. At the Workshop, Dr. Addison presented a poster titled, “The Relationship of Intermuscular Adipose Tissue and Skeletal Muscle Capillarization in Sedentary Older Adults.” Additionally, she was voted a “Rising Star” by the planning committee and participated in the Workshop’s career development and networking program.

► **Cynthia Bearer, MD, PhD**, the Mary Gray Cobey Professor of Neonatology, Department of Pediatrics, presented Grand Rounds at Columbia University, New York, N.Y., on February 27, 2019. Her presentation was titled “Developmental Neurotoxicity of Ethanol-Understanding Exposure and Mechanism.” Dr. Bearer also presented “How to Get Published,” at the Ninth Annual Baltimore-Washington-Virginia Perinatal Consortium, held in Warrenton, Va., on March 8, 2019. Separately, she presented at the Eastern Society for Pediatric Research (ESPR) 2019, “Accepted with Minor Revisions: Manuscript Writing for Clarity and Publication,” in Philadelphia, Pa., on March 22, 2019. Dr. Bearer was also the keynote speaker at the Third Annual Child Well-being Symposium, Albuquerque, N.Mex., on March 30, 2019.

Cynthia Bearer, MD, PhD

Katharine Bisordi, MS, MGC, CGC

► **Katharine Bisordi, MS, MGC, CGC**, Instructor, Department of Pediatrics, presented a poster titled “What the Disease Ontology (DO) Can Do to Improve Communication Across Health-Related Datasets” at the 2019 American College of Medical Genetics (ACMG) Annual Clinical Genetics Meeting, in Seattle, Wash., April 2–6, 2019.

► **Maureen Black, PhD**, the John A. Scholl, MD and Mary Louise Scholl, MD Professor in Pediatrics, was invited to give two lectures at the International Pediatrics Association

Maureen Black, PhD

in Panama City, Panama, “The Future of Child Health: Moving from Survival to Human Capital Development,” on March 18, 2019, and “Nutritional Deficiencies: Links with Cognitive & Social Development Among Infants & Toddlers” on March 19, 2019.

► **Natalie Davis, MD, MMSc**, Assistant Professor, and **Colleen Hughes Driscoll, MD**, Assistant Professor, both from the Department of Pediatrics, organized the 11th Annual Baltimore Washington Virginia Perinatal Consortium (BWVPC) conference, held March 7–8, 2019 at the Airlie Convention Center in Warrenton, Va. This conference was started by **Cynthia Bearer, MD, PhD**, the Mary Gray Cobey Professor of Neonatology, Department of Pediatrics. The conference brings together faculty and fellows from the seven regional academic Neonatology fellowship programs and provides a forum for trainees and junior faculty to present their research, practice moderating sessions, as well as network and collaborate with other researchers in the region.

Colleen Hughes Driscoll, MD

Vasken Dilsizian, MD

► **Vasken Dilsizian, MD**, Professor, Department of Diagnostic Radiology and Nuclear Medicine, delivered an oral presentation entitled “Cardiac PET in Device Infections and Endocarditis,” along with co-chairing the session entitled “Advances in Nuclear Cardiology” at the American College of Cardiology Scientific Sessions, which was held in New Orleans, La., March 15–17, 2019.

► **Alena Egense, MGC, CGC**, Instructor, Department of Pediatrics, presented clinical case studies titled “Waardenburg Syndrome: Expansion of Genotype/Phenotype Presentations” and “Whole Exome Sequencing: Expanding Phenotype of Vascular EDS” at the Quarterly Baltimore Washington Genetics Group (BWGG) Regional meeting in Baltimore, Md., on February 28, 2019. In addition, Dr. Egense, **Carol Greene, MD, FAAP, FACMG**, Professor; **Julie Frank, MS, CGC**, Instructor; **Rachel Gore, ScM, CGC**, Instructor, and **Katharine Bisordi, MS, MGC, CGC**, Instructor, all from the Department of Pediatrics, coordinated talks on updates in clinical genetics practice modalities, hypertrophic cardiomyopathy, personalized genomic medicine research and clinical case reports, for the Baltimore Washington Genetics Group Regional Meeting in Baltimore, Md. on February 28, 2019.

Alena Egense, MGC, CGC

Rachel Gore, ScM, CGC

► **Rachel Gore, ScM, CGC**, Instructor, Department of Pediatrics presented clinical case study titled “PMS2 Gene: Potential Expansion of Cancer Associations” at the Quarterly Baltimore Washington Genetics Group (BWGG) Regional meeting in Baltimore, Md. on February 28, 2019.

► **Brian Johnson, OTR/L**, PhD Candidate, Department of Physical Therapy and Rehabilitation Science, attended a workshop at The National Center of Neuromodulation for Rehabilitation, hosted at The Medical University of South Carolina, titled “Advanced Operant Conditioning and Transcranial Direct Current Stimulation.” While there, he received didactic and hands on training regarding EMG/MEP operant conditioning, transcranial direct current stimulation, and transcranial magnetic stimulation.

Events, Lectures & Workshops Continued

Karen Kotloff, MD

► **Karen Kotloff, MD**, Professor of Pediatrics, and Associate Director of Clinical Studies, Center for Vaccine Development and Global Health (CVD), spoke at the fourth VIDA Investigators' Meeting in Bamako, Mali. Other faculty speakers included, **Kathleen Neuzil, MD, PhD**, Professor of Medicine and Pediatrics and Director of the CVD, and **Dilruba Nasrin, MBBS, PhD**, Assistant Professor of Medicine, also from CVD. Dr. Kotloff also gave a talk on March 9, 2019 titled "Global Health Research: From Science to Humanity" at the St. Jude's Children's Hospital in Memphis, Tenn.

► **Richard Lichenstein, MD**, Professor, Department of Pediatrics, presented "Planning for Pediatrics in Disasters" at MedStar Emergency Management Summit at Harbor Hospital Medical Center, in Baltimore, Md., on March 14, 2019.

Richard Lichenstein, MD

► **Victoria Marchese, PhD, PT**, Associate Professor, Department of Physical Therapy and Rehabilitation Science, presented "Challenges with Gait and Functional Movement in Childhood Leukemia Survivors: Solutions for Improvement," on March 28, 2019 at the Current Concepts in Cancer Rehabilitation conference hosted by Penn State Health.

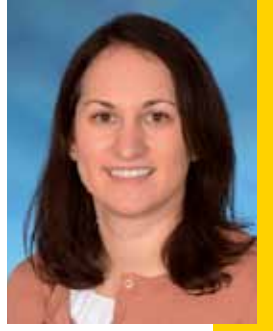

Victoria Marchese, PhD, PT

► **Kathleen Neuzil, MD, MPH**, Professor of Medicine and Pediatrics and Director of the Center for Vaccine Development and Global Health (CVD), delivered the keynote address at the 11th International Conference on Typhoid and other invasive *Salmonellosis*, March 26–28, 2019, in Hanoi, Vietnam. Other speakers included, **Myron Levine, MD**, The Simon and Bessy Grollman Distinguished Professor of Medicine, Associate Dean for Global Health, Vaccinology and Infectious Diseases; **Marcelo Sztein, MD**, Professor; **Rezwanul Wahid, MBBS, PhD**, Assistant Professor; and **Karen Kotloff, MD**, Professor of Pediatrics, and Associate Director of Clinical Studies, all from the Department of Pediatrics and CVD.

Kathleen Neuzil, MD, MPH, FIDSA

► **Rachel Skolky, PT, MSPT, DPT, GCS**, Assistant Professor, and **Megan Ortega, DPT**, Instructor, both from the Department of Physical Therapy and Rehabilitation Science, participated in the visit from ninth grade students who are enrolled in the P-TECH Healthcare program at Dunbar High School on March 18, 2019. Thirty-five students visited the R. Adams Cowley Shock Trauma Center and spent the day working directly with health care professionals in different areas of medicine, including physical therapy. In addition, Dr. Sholky; **Cara Felter, PT, DPT, MPH**, Assistant Professor; and third year DPT student **Ray Gergen**, all from the Department of Physical Therapy and Rehabilitation, along with UMB employee Greg Brightbill, presented a course at the APTA of MD Spring Conference which was held on March 30, 2019. The course was entitled, "LGBTQ Patients in the Clinic and Beyond: Practical Applications & Discussion."

Rachel Skolky, PT, MSPT, DPT, GCS

Ivana Vucenik, PhD

► **Ivana Vucenik, PhD**, Associate Professor, Department of Medical and Research Technology, presented two lectures in a seminar series on nutrition, immunity and cancer, highlighting the role of inositol compounds. These meetings were held in Spain; one meeting was in Barcelona on March 19, 2019 and another in Madrid on March 22, 2019.

Richard Zhao, PhD

► **Alexander Whitaker, MD**, Assistant Professor, and **Alena Egense, MGC, CGC**, Instructor, both from the Department of Pediatrics, were invited to give a talk titled "General Pediatrician and Genetic Counselor Practice: Outcomes of Adapting a Genetics Clinic to New Models" at the Quarterly Baltimore Washington Genetics Group (BWGG) Regional meeting in Baltimore, Md. on February 28, 2019.

Alexander Whitaker, MD

► **Richard Zhao, PhD**, Professor, Department of Pathology, was invited to present at the University of Minnesota for the Microbiology, Immunology and Cancer Biology (MICaB) Seminar Series on January 28, 2019. His lecture was titled "From Yeast to Mammalian Cells: An Integrated Approach to Study Human Viruses."

Appointments

We applaud our colleagues on their recent appointments!

Carissa Baker-Smith, MD, MS, MPH, FAAP, FAHA

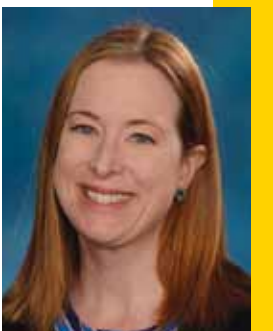

► **Carissa Baker-Smith, MD, MS, MPH, FAAP, FAHA**, Assistant Professor, Department of Pediatrics, was selected as a program committee member for the Ambulatory Track of 8th Quadrennial World Congress of Pediatric Cardiology and Cardiac Surgery, which will be held in Washington, D.C. in 2021.

Paul Staats, MD

► **Paul Staats, MD**, Associate Professor, Department of Pathology, has been elected as President of the Association of Directors of Anatomic and Surgical Pathology.

► **Lee-Ann Wagner, MD**, Assistant Professor, Department of Medicine, was appointed as President-Elect for the Society of Hospital Medicine (SHM) Maryland Chapter.

Lee-Ann Wagner, MD

In the News

A job well done to all who have kept us in the media spotlight!

Richard Zhao, PhD

► **Richard Zhao, PhD**, Professor, Department of Pathology, was interviewed by The WBAL TV Baltimore on the "London HIV Development," on March 8, 2019. Separately, Dr. Zhao was interviewed by Mr. Jeff Salkin, host of the Direct Connection of Maryland Publication Television, on "Your Health: HIV Latest," March 18, 2019.

Publications

Hats off to those who have been published!

Gad Alon, PT, PhD

► **Gad Alon, PT, PhD**, Associate Professor Emeritus, Department of Physical Therapy and Rehabilitation Science, was a co-author of “An Exploratory Electrical Stimulation Protocol in the Management of an Infant with Spina Bifida: A Case Report,” which was published in *Child Neurology Open* on March 29, 2019.

► **Pavlos Anastasiadis, PhD**, Postdoctoral Fellow (first author) and **Victor Frenkel, PhD**, Associate Professor, (last author), both from the Department of Diagnostic Radiology and Nuclear Medicine, were among the co-authors of “Design, Characterization and Evaluation of a Laser-Guided Focused Ultrasound System for Preclinical Investigations,” which was published in *Biomedical Engineering Online* on March 28, 2019.

► **Hiroyuki Arakawa, PhD**, Assistant Professor, Department of Anatomy and Neurobiology, was the author of “Age and Sex Differences in the Innate Defensive Behaviors of C57BL/6 Mice Exhibited in a Fear Conditioning Paradigm and Upon Exposure to a Predatory Odor,” which was published in the May 2019 issue of *Physiology and Behavior*.

Victor Frenkel, PhD

► **Bridget Armstrong, PhD**, Postdoctoral Fellow, Department of Pediatrics, was the lead author on “Featured Article: Bidirectional Effects of Sleep and Sedentary Behavior Among Toddlers: A Dynamic Multilevel Modeling Approach,” which was published in the April 2019 issue of the *Journal of Pediatric Psychology*. **Maureen Black, PhD**, the John A. Scholl, MD and Mary Louise Scholl, MD Professor in Pediatrics, was a co-author. The article was accompanied by a commentary.

► **Omer Awan, MD, MPH**, Associate Professor, Department of Diagnostic Radiology and Nuclear Medicine, was among the co-authors of “Utilizing Audience Response to Foster Evidence-Based Learning in a Pilot Study: Does It Really Work?” which was published in *Cureus* on December 31, 2018.

► **Carissa Baker-Smith, MD, MS, MPH, FAAP, FAHA**, Assistant Professor, Department of Pediatrics, was among the co-authors of “Aligning Adult and Pediatric Blood Pressure Guidelines,” which was published in the April 2019 issue of the *Journal of Hypertension*.

Bridget Armstrong, PhD

► **Eileen Barry, PhD**, Professor, Department of Medicine, Center for Vaccine Development and Global Health (CVD), was among the authors of “Biochemical and Immunological Evaluation of Recombinant CS6-Derived Subunit Enterotoxigenic *Escherichia Coli* Vaccine Candidates,” which was published in *Infection and Immunity* on February 21, 2019.

► **Andrea Berry, MD**, Assistant Professor of Pediatrics; **Amed Ouattara, PhD, DPharm**, Research Associate of Medicine; **Kirsten Lyke, MD**, Professor of Medicine; **Matthew Laurens, MD, MPH**, Associate Professor of Pediatrics; **Shannon Takala-Harrison, PhD**, Associate Professor of Medicine; and **Mark A. Travassos, MD, MSc**, Assistant Professor of Pediatrics, all from the Center of Vaccine Development and Global Health, were among

the authors of “Antibodies to Peptides in Semiconserved Domains of RIFINs and STEVORs Correlate with Malaria Exposure,” which was published in the March 2019 issue of *mSphere*.

► **Maureen Black, PhD**, the John A. Scholl, MD and Mary Louise Scholl, MD Professor in Pediatrics, was a co-author on a commentary in *The Lancet*, “Optimising the Continuum of Child and Adolescent Health and Development,” and a co-author on two papers in *The Archives of Diseases in Childhood*, “Rating Early Childhood

Development Outcome Measurement Tools for Routine Health Programme Use,” and “Counting Outcomes, Coverage and Quality for Early Child Development Programmes.”

► **Thomas Blanchard, PhD**, Associate Professor; **Steven Czinn, MD**, the Drs. Rouben and Violet Jiji Endowed Professor and Chair; and **Aditi Banerjee, PhD**, Assistant Professor, all from the Department of Pediatrics; **Andrea Bafford, MD**, Assistant Professor, Department of Surgery; and **Antonino Passaniti, PhD**, Professor, Department of Pathology, were among the co-authors of “Identification of Cross Talk Between Foxm1 and RASSF1A as a Therapeutic Target of Colon Cancer,” which was published in the February 2019 issue of *Cancers*.

Mary Beth Bollinger, DO

► **Mary Beth Bollinger, DO**, Professor, Department of Pediatrics, was among the co-authors of “Pattern of Medication Use in Children with Very Poorly Controlled Asthma,” which was published in *Annals of Allergy Asthma and Immunology* on January 25, 2019. In addition, Dr. Bollinger, was among the co-authors of “Caregiver-Reported Asthma Control Predicts Future Visits, Independent of Guideline-Based Control Measures,” which was published in the *Journal of Allergy Clinical Immunology in Practice* on January 28, 2019.

► **Jonathan Bromberg, MD, PhD**, Professor of Surgery, Microbiology and Immunology, Center for Vascular and Inflammatory Diseases, was among the co-authors of “CD4 T Cell Sphingosine 1-Phosphate Receptor (S1PR)1 and S1PR4 and Endothelial S1PR2 Regulate Afferent Lymphatic Migration,” which was published in the March 2019 issue of *Science Immunology*.

David Dreizin, MD

► **David Dreizin, MD**, Assistant Professor; **Uttam Bodanapally, MBBS**, Assistant Professor; and **Amelia Wnorowski, MD**, Assistant Professor, all from the Department of Diagnostic Radiology and Nuclear Medicine, were among the co-authors of “A Comparison of Segmented Abdominopelvic Fluid Volumes with Conventional CT Signs of Abdominal Compartment Syndrome in a Trauma Population,” which was published

in *Abdominal Radiology* on April 5, 2019. Dr. Wnorowski was also a co-author of “Patterns in On-time, Daily Submission of a Short Web-Based Personal Behavior Survey in a Longitudinal Women’s Health Study,” which was published in *Sexually Transmitted Diseases* on March 14, 2019.

► **DeAnna Friedman-Klabanoff, MD**, Postdoctoral Fellow; **Matthew Laurens, MD, MPH**, Associate Professor; **Andrea Berry, MD**, Assistant Professor; **Mark Travassos, MD, MSc**, Assistant Professor, all from the Department of Pediatrics; **Myron Levine, MD, DTPH**, The Simon and Bessy Grollman Distinguished Professor of Medicine, Associate Dean for Global Health, Vaccinology, and Infectious Diseases; **Robert Edelman, MD**, Professor Emeritus; and **Kirsten Lyke, MD**, Professor, all from the Department of Medicine, authored “The Controlled Human Malaria Infection Experience at the University of Maryland,” which was published in the *American Journal of Tropical Medicine and Hygiene* on March 10, 2019.

► **Sijia Guo, PhD**, Postdoctoral Fellow; **Jiachen Zhuo, PhD**, Assistant Professor; **Guang Li, PhD**, Assistant Professor; **Dheeraj Gandhi, MBBS**, Professor; **Elias Melhem, MD, PhD**, Professor; and **Rao Gullapalli, PhD, MBA**, Professor, all from the Department of Diagnostic Radiology and Nuclear Medicine, along with **Paul Fishman, MD, PhD**, Professor, Department of Neurology; **Howard Eisenberg, MD**, Professor, Department of Neurosurgery; and **Mor Dayan**, Clinical Programs Manager, Insightec Ltd., were the authors of “Feasibility of Ultrashort Echo Time Images Using Full-

Wave Acoustic and Thermal Modeling for Transcranial MRI-guided Focused Ultrasound (tcMRgFUS) Planning,” which was published in *Physics in Medicine and Biology* on March 25, 2019.

► **Anne Hammer, PhD**, Visiting Doctoral Fellow, and **Patti Gravitt, PhD, MS**, Professor, both from the Department of Epidemiology & Public Health, were among the co-authors of “Hysterectomy-Corrected Cervical Cancer Mortality Rates in Denmark During 2002–2015: A Registry-Based Cohort Study,” which was published in *Acta Obstetrica Gynecologica Scandinavica* on March 13, 2019.

Cheng-Ying Ho, MD, PhD

► **Cheng-Ying Ho, MD, PhD**, Assistant Professor, Department of Pathology, was among the co-authors of “Tiling and Somatotopic Alignment of Mammalian Low-Threshold Mechanoreceptors,” which was published in *Proceedings of the National Academy of Sciences* on April 17, 2019.

► **Rydhwana Hossain, MD**, Assistant Professor, Department of Diagnostic Radiology and Nuclear Medicine, was among the co-authors of “Organizing Pneumonia Co-existing with Carcinoid Tumour: Complete Resolution with Bronchoscopic Tumour Resection,” which was published in *Respirology Case Report* on March 7, 2019.

► **Laundette Jones, PhD**, Assistant Professor, Department of Epidemiology & Public Health, was among the co-authors of “Planning for Community Scale-Up of Project HEAL: Insights from the SPRINT Initiative,” which was published in *Health Promotion Practice* on January 24, 2019.

► **Kimia Khalatbari Kani, MD**, Assistant Professor, Department of Diagnostic Radiology and Nuclear Medicine, was the author of “Clavicle Fractures: Review and Update for Radiologists,” which was published in *Current Problems in Diagnostic Radiology* on February 27, 2019. Dr. Kani was among the co-authors of “Preoperative MRI for the Multiligament Knee Injury: What the Surgeon Needs to Know,” which was published in *Current Problems in Diagnostic Radiology* on February 10, 2019.

► **Pratap Karki, DSci**, Assistant Professor, and **Anna Birukova, MD**, Professor, both from Department of Medicine, were among the co-authors on “Microtubule Destabilization Caused by Particulate Matter Contributes to Lung Endothelial Barrier Dysfunction and Inflammation,” which published in the January 2019 issue of *Cellular Signaling*. Separately, both Drs. Karki and Birukova were among the co-authors of “*Staphylococcus aureus*-Induced Endothelial Permeability and Inflammation are Mediated by Microtubule Destabilization,” which was published in the *Journal of Biological Chemistry* on March 8, 2019. Drs. Karki and Birukova, along with **Yunbo Ke, PhD**, Assistant Professor, and **Konstantin Birukov, MD, PhD**, Professor, both from the Department of Anesthesiology, were among the co-authors on “Mechanosensitive Rap1 Activation Promotes Barrier Function of Lung Vascular Endothelium Under Cyclic Stretch” which was published in the *Molecular Biology of the Cell* on April 1, 2019.

Karen Kotloff, MD

► **Karen Kotloff, MD**, Professor, Department of Pediatrics and Head of the Division of Pediatric Infectious Diseases and Tropical Medicine; **Dilruba Nasrin, MBBS, PhD**, Assistant Professor, Department of Medicine; and **Myron Levine, MD, DTPH**, The Simon and Bessy Grollman Distinguished Professor of Medicine, Associate Dean for Global Health, Vaccinology and Infectious Diseases, authored “Risk Factors for Death Among Children 0–59 Months of Age with Moderate-to-Severe Diarrhea in Manhica District, Southern Mozambique,” which was published in *BMC Infectious Diseases* on April 15, 2019. Dr. Kotloff also

authored “Clinical Endpoints for Efficacy Studies,” which was published in *Vaccines* on April 10, 2019.

► **Jay Magaziner, PhD, MSHyg**, Professor and Chair; **Jack Guralnik, MD, PhD, MPH**, Professor; and **Denise Orwig, PhD**, Associate Professor, all from the Department of Epidemiology & Public Health, were among the co-authors of “Establishing the Link Between Lean Mass and Grip Strength Cut-Points with Mobility Disability and Other

Laundette Jones, PhD

Jay Magaziner, PhD, MSHyg

Health Outcomes: Proceedings of the Sarcopenia Definition and Outcomes Consortium Conference,” which was published in *Journals of Gerontology Series A: Biological Sciences and Medical Sciences* on March 14, 2019.

Monica McArthur, MD, PhD

► **Monica McArthur, MD, PhD**, Assistant Professor of Pediatrics; **Wilbur Chen, MD**, Associate Professor of Medicine; and **Marcelo Sztein, MD**, Professor of Pediatrics, all from the Center of Vaccine Development and Global Health, authored “Diversity of *Salmonella* Typhi-Responsive Regulatory T Cells Before and After Ty21a Typhoid Vaccination in Children and Adults,” which was published in the April 2019 issue of *Clinical Immunology*.

► **Timothy Miller, MD**, Assistant Professor; **Gaurav Jindal, MD**, Associate Professor; and **Dheeraj Gandhi, MBBS**, Professor, all from the Department of Diagnostic Radiology and Nuclear Medicine, were among the co-authors of “Pipeline Embolization Device Diameter is an Important Factor Determining the Efficacy of Flow Diversion Treatment of Small Intracranial Saccular Aneurysms,” which was published in the *Journal of Neurointerventional Surgery* on March 29, 2019. Dr. Gandhi was also a co-author of “Management of Unruptured Intracranial Aneurysms in Older Adults: A Cost-Effectiveness Analysis,” which was published in *Radiology* on March 19, 2019, and “Comparative Effectiveness of Endovascular Thrombectomy in Elderly Stroke Patients,” which was published in the April 2019 issue of *Stroke*.

► **Kathleen Neuzil, MD, MPH, FIDSA**, Professor of Medicine and Pediatrics, and Director of the Center for Vaccine Development and Global Health, was among the authors of “Impact of Rotavirus Vaccine Introduction in Children Less Than 2 Years of Age Presenting for Medical Care with Diarrhea in Rural Matlab, Bangladesh,” which was published in *Clinical Infectious Disease* on February 12, 2019.

Kathleen Neuzil, MD, MPH, FIDSA

Lyndsay O'Hara, PhD, MPH

► **Lyndsay O'Hara, PhD, MPH**, Assistant Professor, and **Anthony Harris, MD, MPH**, Professor, both from the Department of Epidemiology & Public Health, were among co-authors of “Transmission Pathways of Multidrug-Resistant Organisms in the Hospital Setting: A Scoping Review,” which was published in *Infection Control & Hospital Epidemiology* on March 6, 2019.

► **Kelly Rock, PT, DPT, PhD Student**, Department of Physical Therapy and Rehabilitation Science, was a co-author of “Academy of Oncologic Physical Therapy EDGE Task Force on Cancer: A Systematic Review of Outcome Measures for Pain in Children,” which was published in the May 2019 issue of *Journal Rehabilitation Oncology*.

Eliot Siegel, MD

► **Eliot Siegel, MD**, Professor, Department of Diagnostic Radiology and Nuclear Medicine, was last author of “CT-Based 3D Printing of the Glenoid Prior to Shoulder Arthroplasty: Bony Morphology and Model Evaluation,” which was published in the *Journal of Digital Imaging* on February 28, 2019.

► **Marcelo Sztein, MD**, Professor, Department of Pediatrics, authored “Attenuated Oral Typhoid Vaccine Ty21a Elicits Lamina Propria and Intra-Epithelial Lymphocyte Tissue-Resident Effector Memory Cd8 T Responses in the Human Terminal Ileum,” which was published in the February 2019 issue of *Frontiers in Immunology*.

Marcelo Sztein, MD

Franklin Toapanta Yanchapaxi, MD, PhD

► **Franklin Toapanta Yanchapaxi, MD, PhD**, Assistant Professor of Medicine; **Monica McArthur, MD, PhD**, Assistant Professor of Pediatrics; and **Marcelo**
