The Research Career Development Program (RCDP) offers workshops, classes and seminars in subjects that are crucial to an academic research career, including Grant Writing, Publishing Your Research and Identifying Funding Sources for Your Research. In addition, RCDP offers symposia on professional skills development, including Scientific Leadership & Professional Development. To view the workshop calendar, workshop descriptions, funding sources, grant deadlines etc., please visit: http://medschool.umaryland.edu/career/.

Research Skills Workshops

Information Sessions for New Faculty re: Research Career Development Program

The Research Career Development Program (RCDP) is providing small group information sessions for new faculty as an introduction to our program and available services. All new faculty, as well as faculty who aren't new to SOM, but are interested in learning more about our training and services, are invited to participate in one of the small group information sessions listed below.

The purpose of these sessions is to introduce ourselves and discuss how we can help support your research and professional development. In addition, we will address any questions you may have about research or professional development, including resources available to you. We are happy to help you with issues such as identifying an appropriate mentor(s), identifying any research resources you may need, joining a writing accountability group (to increase your writing productivity), grant writing classes and classes in scientific leadership, etc.

Small group sessions are scheduled on the following days/times and located at 688 W. Baltimore Street, MSTF Building, Room 3-19

<table>
<thead>
<tr>
<th>Day</th>
<th>Date</th>
<th>Time</th>
</tr>
</thead>
<tbody>
<tr>
<td>Friday</td>
<td>Aug 3</td>

Maryland Stem Cell Research Fund (MSCRF)
Information Session/Breakfast
Thursday, September 6
9:00 – 10:30am
660 Redwood Street, Howard Hall 450

This information session/breakfast will provide an overview of the grant programs offered by the Maryland Stem Cell Research Fund (MSCRF) for human stem cell research in the state of Maryland. This session will be led by Dan Gincel, PhD, VP University Partnerships, TEDCO and Executive Director of MSCRF, and Curt Civin, MD, Associate Dean for Research, UMSOM and Director of Center for Stem Cell Biology & Regenerative Medicine.

Past recipients of this award, Ricardo Feldman, PhD, Associate Professor, Department of Microbiology and Immunology and Muthukumar Gunasekaran, PhD, Post Doctoral Fellow, Center for Vascular and Inflammatory Diseases, will share their experience with applying and receiving this award.

For more information on MSCR Funding opportunities, visit: http://www.mscr.org/content/fundingopps/index.php

Target audience: Researchers including faculty, post-doctoral fellows and pre-doctoral students who wish to conduct basic, translational and/or clinical research in Maryland involving human stem cells and have institutional support are eligible to apply.

NOTE: Continental breakfast will be provided.

Registration required online at: http://registrationrcdp.eventbrite.com

Scientific Writing: Monthly Seminar Series

Thursdays (September 2018 – June 2019)
9:00 – 10:00am
660 W. Redwood Street, Howard Hall, Room 450

The purpose of this series is to help faculty, fellows and postdocs write clear, well-organized scientific papers. The series consists of ten (10), 1-hour stand-alone sessions, each of which focuses on an important aspect of scientific writing. Registration is available for the first session, described below. Dates and subjects for the monthly sessions are outlined below and will be described in detail in subsequent newsletters. Please note: faculty, fellows and postdocs are welcome to attend every session in the series or single sessions of interest.

Sept 13: Tips for Increasing your Scientific Writing Productivity

Writing is a fundamental part of a scientist's "job", but strategies for writing efficiently are rarely taught. As a result, scientists often struggle with writing, especially with the practical steps of the writing process, such as how to get started. This session begins with ten tips for increasing writing productivity, with a focus on making writing part of your workday. These tips are designed to make writing easier and to help participants write more quickly and efficiently.

One of the most successful strategies for increasing writing productivity is to join a writing accountability group. Participants will learn about different writing accountability group opportunities available to UMB faculty, fellows and postdocs.

Target Audience: UMB Faculty, Fellows and Postdocs

Speakers:

Wendy Sanders, MA
Associate Dean, Research Career Development Program, UMSOM

Stacie Mendoza
Program Director, Research Career Development Program, UMSOM

Registration required online at: http://registrationrcdp.eventbrite.com

Please mark your calendar for the following scheduled sessions on Thursdays, 9-10am in Howard Hall 450. Subjects are identified below and registration information will be announced in future newsletters.

Oct 11: Writing and Conducting a Systematic Review
Nov 8: Planning Your Publication: Defining Your Research Question, Choosing an Appropriate Journal, Determining Authorship, etc.
Dec 13: Tips for Writing a Standard Scientific Research Paper: (Introduction, Methods, Results and Discussion; Abstract)
Jan 10: Developing Tables, Figures and Graphs for Your Research Paper
Feb 14: Developing Effective Titles and Abstracts
Mar 14: Tips for Scientific Writing, with a focus on clarity
Apr 11: Responding to Reviewers
May 9: Reviews, Commentaries and Opinion Pieces
June 13: Business Writing for Scientists: Email, Resumes, Reports, Etc.
The Research Career Development Program is pleased to announce a major new addition to our curriculum, a monthly seminar series, outlined below, which focuses on the skills and knowledge needed to successfully manage a research program or research team.

**Managing Your Research Program:**

**Monthly Seminar Series (NEW)**

**Tuesdays (September 2018 – June 2019)**

621 W. Lombard Street, SMC Campus Center, Room 351

This new monthly seminar series consists of ten (10), 1-hour stand-alone sessions, each of which focuses on a subject/skill set that is important to successfully developing and managing a research program/team. Faculty and senior postdocs are welcome to attend all sessions, or to select the sessions they feel would be most useful to their needs. Registration is available for the first session noted below:

### Sept 18

**Developing Your Leadership Skills**

This session addresses the role of a research program/team leader. Subjects include strategies for identifying and developing effective leadership skills as well as tips for building and maintaining an effective team.

**Speaker:** Will be announced shortly

**Registration required online at:** [http://registrationrcdp.eventbrite.com](http://registrationrcdp.eventbrite.com)

Please mark your calendar for the following scheduled sessions on Tuesdays, 9:00am at the SMC Campus Center, Room 351. Topics and registration information will be announced in future newsletters.

Oct 16: Time Management; including When to Say “Yes” and How and When to Say “No”.

Nov 20: Getting the Mentoring You Need – and Learning How to Mentor

Dec 18: Project Management

Jan 15: Financing Research: 1) Developing a Budget for Your Research Program and 2) Diversifying Your Sources of Funding

Feb 19: Staffing Issues: Making the Best Hiring Decisions, including Interviewing and Evaluating Applicants; Terminating Employees

Mar 19: Communicating Effectively, including tips for holding small group meetings, conversations with your research group, communication styles

Apr 16: Negotiating Skills

May 21: Setting Up Collaborations, Networking, Getting the Most from Meetings & Conferences

June 18: Planning for Promotion

---

**Identifying Funding Sources for Faculty**

**Wednesday, September 19**

9:00 – 10:00am

685 W. Baltimore Street, MSTF Building, Room 316

This interactive workshop, given by **Stacie Mendoza, Program Director**, will assist faculty in identifying non-NIH sources of funding for their research. Topics will include:

- Comprehensive introduction to various funding resources, including searchable databases and useful websites
- Helpful tips for identifying sources of funding
- Interactive demonstration using funding databases

**Registration required online at:** [http://registrationrcdp.eventbrite.com](http://registrationrcdp.eventbrite.com)

---

**Overview/Introduction to NIH Career Development (“K”) Awards**

**Tuesday, September 25**

9:00 – 12:00pm

621 W. Lombard Street, SMC Campus Center, Room 208

This session provides an overview of NIH Career Development (“K”) Awards, including the major types of awards (K99, K22, K01, K08, K23, K25). The following subjects will be covered 1) components of a K award 2) eligibility and competitiveness for a K award 3) preliminary steps, including developing a fundable research question, identifying your mentor(s) and communicating with your Program Officer.

This session will also include a panel of recent K awardees who will discuss their experiences with competing successfully – and holding - a K award

The session will conclude with optional ½ hour interactive table discussions which will allow participants to interact with the speakers and ask questions re: applying for different types of career development awards.

**Target audience:** UMB faculty and postdocs who are considering applying for an NIH Career Development “K” award.

**NOTE:** A continental breakfast will be provided.

**Speakers:**

- **Wendy Sanders, MA**
  
  *Associate Dean*, Office of Research Career Development, UMSOM

- **Stacie Mendoza**
  
  *Program Director*, Office of Research Career Development, UMSOM

- **Jennifer Aumiller, MEd**
  
  *Director of Pre & Postdoctoral Career Development*, Office of Postdoctoral Scholars, UMSOM

- **Renee Cockerham, PhD**
  
  *Program Manager*, Office of Postdoctoral Scholars, UMSOM

- **Peixin Yang, PhD**
  
  *Deputy Director of Graduate and Postdoctoral Studies*, UMSOM

**Panelists:** Recent recipients of K awards

**Registration required online at:** [http://registrationrcdp.eventbrite.com](http://registrationrcdp.eventbrite.com)

This session is sponsored by the Office of Research Career Development, UMSOM and the Office of Postdoctoral Scholars, UMSOM
**Patient Centered Outcomes Research (PCOR) Funding Information Session**

**Tuesday, October 23**

621 W. Lombard Street, SMC Campus Center, Room 351

The Office for Research Career Development is sponsoring a series of seminars to help investigators learn about available funding sources. This 1 ½ hour information session will provide an overview of the Patient-Centered Outcomes Research Institute (PCORI) funding opportunities, including tips and personal experiences from investigators who have successfully competed for these grants. In addition, there will be a discussion of opportunities available to UMB investigators via the infrastructure grants as well as other opportunities available in PCOR, followed by an open Q & A.

For more information on PCORI, visit: [http://www.pcori.org/funding-opportunities/funding-center/](http://www.pcori.org/funding-opportunities/funding-center/)

**Speakers:** C. Daniel Mullins, PhD, Professor and Chair, PHSR Department, UMSOP; Michelle Medeiros, Director of Research, PATIENTS Program; Joey Mattingly, PharmD, MBA, Assistant Professor, Department of Pharmacy Practice and Science (PPS), UMSOP and Director of Operations, PATIENTS Program

**Registration required online at:** [http://registrationrcdp.eventbrite.com](http://registrationrcdp.eventbrite.com)

---

**Introduction to Basic Research Training**

**August 13-24, 2018**

685 W. Baltimore Street, MSTF Building, Room 3-54

The Department of Medicine is pleased to offer its 16th annual summer course “Introduction to Basic Research” in August 2018.

The course is designed for fellows, residents, post-docs, technicians, students and clinicians who would like to include basic research in their studies, as well as clinicians who would like to explore the applications of basic science methodologies in clinical research. The goal of this course is to provide an overview of the various research techniques and expertise available on campus and also the core scientific resources that are available to our scientists at UMB. Lectures will deal with the background behind various molecular techniques, statistical applications and data analysis, balancing effort versus impact when beginning new research projects, research portfolio building, use of experimental animals, concepts of experimental design and experimental models.

The course will be held for two weeks from **August 13 – August 24, 2018.** Classes will be held **from 9 AM to 12 noon** each day in MSTF, Room 3-54.

The deadline for registration is **August 8, 2018.** Registration, which covers the cost of all class materials, is $25. Checks should be written to the **University of Maryland, Baltimore.**

**Link to the website:** [http://medschool.umaryland.edu/medicine/](http://medschool.umaryland.edu/medicine/)

**For further information please contact**

Ishwar S. Singh: [isingh@medicine.umaryland.edu](mailto:isingh@medicine.umaryland.edu)

**Registration forms can be scanned and emailed or mailed to**

Ishwar S. Singh: [isingh@medicine.umaryland.edu](mailto:isingh@medicine.umaryland.edu), or Ishwar S. Singh: Health Science Facility II, Room S141, 20 Penn St., Baltimore, MD 21201.

**CME credits will not be available.**
The Center for Innovative Biomedical Resources (CIBR) is the administrative umbrella for the wide portfolio of core facilities UMSOM investigators have available to support their research. In addition to the cutting-edge services, instrumentation and expertise CIBR cores provide, CIBR also hosts seminars, workshops, symposia and an annual retreat.

**Spotlight on CIBR Resources**

**Translational Laboratory Shared Service (TLSS)**

The Translational Laboratory Shared Service (TLSS) is a Core Lab in the Stewart and Marlene Greenebaum Comprehensive Cancer Center (UMGCC) in UMB’s School of Medicine. Our mission is to translate or further the ideas of the researchers at UMB toward their next research goal and ultimately to clinical practice. We perform *in vitro* and *in vivo* work as well as support early phase clinical trials.

The lab’s role is to support principle investigators at UMB who want to conduct scientific research using cancer cell lines, *in vivo* models, primary human cells, patient derived xenografts and clinical trial material. Our collaboration with Dr. Feyruz Rassool exemplifies one of our primary goals, to generate data using our umbrella IACUC protocol. Dr. Rassool investigates the combination of two classes of drugs to treat cancer, the demethylating epigenetic drugs (e.g., Azacytidine) and DNA repair inhibitors (e.g., PARP inhibitor, Talozaparib). With our help, Dr. Rassool and her students were able to demonstrate *in vivo* efficacy of this combination in both breast cancer and leukemia (Muvarak et al, Cancer Cell 2016).

Our collaboration with Dr. Ashkan Emadi illustrates the support the TLSS can provide physicians who want to conduct pre-clinical and translational research but do not have a lab of their own. Dr. Emadi’s projects extend from bench work, *in vivo* work, processing of clinical trial samples and training his medical students, residents and fellows on how to conduct research. The result has been a fruitful list of publications, grant submissions and correlative studies for clinical trials.

Additionally, we have just started to offer CRISPR services with the help of Tami Kingsbury, PhD. We plan to work with cell lines initially. Though most of the experiments we perform are cancer-centric, we are able to support investigators of all disciplines.
**Individual Consultations (RCD)**

**GRANT APPLICATION/SUMMARY STATEMENT CONSULTATIONS**

Wendy Sanders, MA, Associate Dean for Research Career Development, is available to meet with junior faculty regarding how to plan and develop NIH grant applications. In addition, Ms. Sanders is available to discuss eligibility for various NIH applications. Finally, Ms. Sanders is also available to discuss strategies for addressing summary statements/revising a research grant application. To schedule an appointment with Ms. Sanders, email: wsanders@som.umaryland.edu

~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~

**FUNDING SOURCE CONSULTATIONS**

Stacie Mendoza, Program Director for Research Career Development, assists junior faculty and postdocs with identifying sources of funding for their research including how to navigate the NIH funding database. To schedule a funding consultation, complete a **Funding Search Request Form** online at [http://www.medschool.umaryland.edu/career/Grant-Funding-Consultation-Service/](http://www.medschool.umaryland.edu/career/Grant-Funding-Consultation-Service/) Ms. Mendoza can be contacted via email at: smendoza@som.umaryland.edu
