Brayjesh Lal, MBBS & Brian Englum, MD

Transdisciplinary Research Team Awarded in 2022

Brayjesh K. Lal, MD, Professor in the Department of Surgery and Brian R. Englum, MD MHS, Assistant Professor in the Department of Surgery will give updates on their project, titled "COVID-19 related disruptions of new cancers: disparities in care utilization and patient outcomes". The project aims to identify patient and community factors that impact the disruption in new cancer diagnoses in the COVID era, quantify consequences of the disruption and how patient and community factors impact these consequences.

Laundette Jones, PhD, MPH

Director of Program in Health Equity and Population Health

Dr. Jones will demonstrate the Program's new tool to facilitate the growth of new and existing Health Disparities Think Tanks: Lightning Talks. Lightning Talks are short-form talks that get your ideas across in an attention-grabbing way that makes an impact on your audience. Dr. Jones will demonstrate the technique and give updates about the future of HEPH think tanks.
