

Up to

\$10,000 of CBT Training & Technology Credit

For researchers seeking a career development opportunity in drug development and therapeutics

Awards

Granted by the Center for Biomolecular Therapeutics (CBT), to researchers at any career stage, for pre-clinical studies

Deliverables May Include:

- Structure (NMR, cryoEM, X-ray)
- Medicinal Chemistry (MC)
- Computer-aided Drug Design (CADD)
- Protein Engineering/Biophysics (PEB)
- Target Validation/Screening (TVS)
- *In Vivo* Biology & Drug Testing (IVBDT)
- Other well-defined drug development deliverable(s) or research activities

Career Development Pilot Award (CDPA)

Must have ongoing, federally funded research

Consultation with the CBT on feasibility is required

Applications are received on a rolling basis as funds remain available

Application available upon request
