Elana Fertig Hired at University of Maryland School of Medicine

Publish Date: August 30th, 2024

Dr. Elana Fertig has been appointed the new director of the Institute for Genome Sciences at the University of Maryland School of Medicine. She hails from Johns Hopkins University and is internationally-recognized for integrating spatial multi-omics technologies with mathematical models to develop a new predictive medicine paradigm in cancer.

Her research involves using computational methods to identify biomarkers and mechanisms of therapeutic resistance from a vast trove of genomics data.

Education

Brandeis University (Waltham, MA)

Bachelor's degree

University of Maryland (College Park, MD)

Doctoral degree
