Sub-Internship & Elective Choices

Considerations for Each Specialty

Choosing Sub-Internship and Elective Courses

- Flexible options within framework of graduation requirements
- Consider personal and professional interests and goals
- You may consider courses that will
  - Help you explore or confirm a specialty of interest
  - Fulfill a personal interest
  - Be useful in preparation for internship
  - Be useful in preparation for specialty-based courses (e.g. pre-requisites)
  - Achieve other professional goals, e.g., Research

Choosing Sub-Internship and Elective Courses

- In addition to this resource, students may seek scheduling advise from senior students, departmental faculty, and OSA advisors

- Additional information can also be found in the OSA Student Handbook, under Clinical Scheduling

Additional Considerations

- Addiction Medicine
- Dermatology
- Emergency Medicine
- Endocrine & Diabetes
- Infectious Disease
- Laboratory Medicine
- Ophthalmology
- Psychiatry
- Radiology
- Pain Management
- Patient Safety/Quality Improvement
- Palliative Care

Consider Choosing Something "Universal" to any future specialty

Additional Considerations

- Anesthesiology
- Emergency Medicine
- Internal Medicine Sub-I
- Critical Care

Consider choosing something that will enhance universal skills

I like this specialty…
is there more?

Electives and Sub-I experiences that may add to your specialty choice experience

Information for Following Slides

- **Bolded Blue= Key Sub-Internship rotation for specialty**
- Blue= Sub-Internship you could consider
- Black= Elective you could consider
- **Bolded Black= Key elective rotation for specialty**

****NOTE****

You are NOT required to do all the rotations marked as "Key Sub-I" or "Key Elective." It is typical to do a subset of these rotations. We encourage discussing this with your specialty advisors and/or an OSA Dean.

The following slides do not provide an exhaustive list ☺

Not everything is offered every cycle or rotation.

Rotations are scheduled through a series of surveys, and we do our best to accommodate requests while maintaining best fit and equity for the class.

Enjoy 4th year and explore rotations that you may not be able to explore in the future!
