

PA-23-189: Research Supplements to Promote Diversity in Health-Related Research

Release Date: June 29, 2023

Expiration Date: May 8, 2026

PA-23-189 allows for additional funds to be awarded as supplements to parent awards for all activity codes.

Select the participating organization from the list below for contacts, submission dates, and special instructions.

NIH Common Fund

National Cancer Institute **(NCI)**

National Eye Institute **(NEI)**

National Heart, Lung, and Blood Institute **(NHLBI)**

Applications received after May 15 will be considered for funding in the next fiscal year. NHGRI strongly encourages the PI of the parent research grant to contact both the Scientific Contact listed in this table and the Program Officer of that grant before preparing an application to discuss eligibility and research focus. Please refer to NHGRI-specific guidelines for additional guidance.</p> <p>Trainees are strongly encouraged to attend at least one NHGRI Research Training and Career Development Annual Meeting while supported on the diversity supplement. Travel may be requested up to \$1500 each per NHGRI meeting.</p> <p>Annual Salary Cap for Investigators Developing Independent Research Careers: NHGRI does not impose any salary restriction beyond that imposed legislatively.</p>

<p>National Institute on Aging (NIA)</p> <p>Scientific Contact: NIA Training Office National Institute on Aging (NIA) Email: NIATraining@nih.gov</p> <p>Grants Management Contact: Lesla McQueen, M.Sc. Phone: (301) 496-1472 Email: Lesla_McQueen@nih.gov</p>	<p>NIA Specific Information: See these links for additional application information: http://www.nia.nih.gov/research/dea/training-opportunities-special-populations and https://www.nia.nih.gov/research/diversity-supplements.</p> <p>NIA accepts applications on a <u>rolling basis</u> and reviews applications in a monthly cycle. Applications will be reviewed within 2-3 months of receipt. Applications seeking consideration before September 30 must be received by May 1.</p> <p>Annual Salary Cap for Investigators Developing Independent Research Careers: \$75,000 plus fringe benefits.</p>
<p>National Institute on Alcohol Abuse and Alcoholism (NIAAA)</p> <p>Scientific Contact: Hemin Chin, Ph.D. Phone: 301-443-1282 Email: hemin.chin@nih.gov</p> <p>Grants Management Contact: Judy S. Fox Phone: (301) 443-4704 Email: jfox@mail.nih.gov</p>	<p>NIAAA Specific Information: NIAAA will accept administrative supplement applications <u>twice a year on November 1, and May 1</u>. For more details about recent changes in NIAAA policy and procedures on diversity supplements please refer to http://www.niaaa.nih.gov/grant-funding/funding-opportunities/diversity-supplements.</p> <p>NIAAA will provide up to 3 years of support. Duration of support depends on the candidate's career level, as well as the amount of time remaining on the parent award (excluding a no cost extension) and may be adjusted by the review committee. Recipients of prior diversity or disability supplement funding from NIH Institutes other than NIAAA are eligible to apply for NIH funding. However, if a candidate received a prior NIAAA diversity supplement award, regardless of career stage, they are not eligible to apply for a second NIAAA diversity supplement award.</p> <p>Annual Salary Cap for Investigators Developing Independent Research Careers: \$75,000 plus fringe benefits.</p>
<p>National Institute of Allergy and Infectious Diseases (NIAID)</p> <p>Scientific Contact: Madelyn Reyes, DNP, MA, MPA, RN, FAAN Phone: 301-594-5945 Email: AITrainingHelpDesk@niaid.nih.gov</p> <p>Grants Management Contact: Dhana Khurana Phone: 240-669-2966 Email: khuranav@mail.nih.gov</p> <p>Katherine Matheson Telephone: 301-594-4218 Email: katherine.matheson@nih.gov</p>	<p>NIAID Specific Information: NIAID Guidelines for the Applicant can be found at: Research Supplements NIH: National Institute of Allergy and Infectious Diseases: https://www.niaid.nih.gov/grants-contracts/research-supplements</p> <p>NIAID <u>receives applications at any time and reviews them approximately four times a year</u> (November, February, April, and May). If you want your application reviewed in one of the four listed months, submit it by the first of the preceding month.</p> <p>Submit applications for a high school or undergraduate student for summer work as early as possible. To consider your application for the summer of this calendar year, we have to receive it no later than March 1. If you are seeking an award before the end of a fiscal year—September 30—your application must be received no later than April 1.</p> <p>Applications received after these dates are considered for funding in the next fiscal year. Keep in mind NIAID usually experiences delays in making awards at the beginning of every fiscal year.</p> <p>Contact with NIAID staff is highly recommended before submission of an application.</p>

National Institute of Arthritis and Musculoskeletal and Skin Diseases (NIAMS)

Scientific Contact :

Deepti Bajpai, Ph.D.

Email: NIAMSDiversityProgram@mail.nih.gov

Grants Management Contact:

Leslie Littlejohn

Phone: (301) 594-2545

Email: littlele@mail.nih.gov

NIAMS Specific Information:

See this link for additional application information: <https://www.niams.nih.gov/grants-funding/funding-opportunities/activity-codes#supp-programs>

Administrative supplements applications are accepted year-round except from June 1 through October 1.

NIAMS strongly encourages the PI of the parent research grant to contact both the scientific contact listed in this table and the NIAMS Program Officer of that grant.

Applicants are encouraged to send an e-mail to the scientific contact alerting them to the submission of the application: NIAMSDiversityProgram@mail.nih.gov

Annual Salary Cap for Investigators Developing Independent Research Careers: The requested salary for an investigator should be consistent with the level of support provided by NIH Career Development Awards, for which NIAMS currently provides up to \$100,000. Salary and fringe benefits must be in accordance with the salary structure of the recipient institution and must be consistent with the level of effort.

PD(s)/PI(s) are strongly encouraged to contact the NIAMS Financial or Grants Management Contact for the Institute-specific funding salary/stipend allowances for postdoctoral and Investigators Developing Independent Research Careers.

National Institute of Biomedical Imaging and Bioengineering (NIBIB)

Scientific Contact:

Dave Gutekunst, Ph.D.

Phone: 301-402-5069

Email: dave.gutekunst@nih.gov

Grants Management Contact:

Kathryn (Katie) Ellis

Phone: 302-451-4791

Email: kellis@mail.nih.gov

NIBIB Specific Information:

See this link for additional application information: <https://www.nibib.nih.gov/sites/default/files/2022-08/NIBIB-Diversity-Supplement-Application-Guidelines-August-2022.pdf>

NIBIB will accept applications on a rolling basis. Applications received by May 31 will be reviewed and, if approved for funding, funded in the current fiscal year (by September 30). For applications received after May 31, funding could take place in the current fiscal year or the following fiscal year.

The supplement research must be conducted during the originally approved award period and thus not during a no-cost extension.

Investigators are strongly encouraged to contact the Scientific Contact listed in this table before preparing an application.

For diversity supplements to support investigators developing independent research careers, the annual salary cap is \$90,000 plus fringe benefits. For candidates with clinical degrees, up to \$105,000 plus fringe benefits may be requested based on prior approval from the program director.

National Institute of Dental and Craniofacial Research (NIDCR)

Scientific Contact:

Anissa J. Brown, PhD
Research Training and Career Development Branch
National Institute of Dental and Craniofacial Research
Telephone: (301) 594-4805
Email: anissa.brown@nih.gov

Grants Management Contact:

Dede Rutberg, MBA
Phone: (301) 594-4798
Email: rutbergd@mail.nih.gov

NIDCR Specific Information:

NIDCR will accept and review applications on a continuous basis until July 16, 2022 for fiscal year 2022. Applications received after July 16, 2022 will be considered for funding in the next fiscal year. NIDCR strongly encourages the PD(s)/PI(s) to contact both the scientific contact listed in this table and the NIDCR Program Officer of the parent research grant.

Annual Salary Cap for Investigators Developing Independent Research Careers: \$100,000 plus fringe benefits, per year for a minimum of 75% to 100% research effort.

The Eunice Kennedy Shriver National Institute of Child Health and Human Development (NICHD)

Scientific Contact:

Applicants should contact the NICHD Program Official listed on the Notice of Grant Award.

NICHD Program Officials

Email: NICHD_DivReSuppCoord@nih.gov

NICHD Specific Information:

Contact with NICHD staff is highly recommended before submission of an application.

NICHD Application Receipt Dates and Notifications:

Receipt Dates	Funding Decision	Earliest Possible Start Date
September 15	December	January
January 15	April	June
May 15	August	September

*Applications submitted between the above receipt dates will be reviewed in the subsequent cycle.

NICHD Supported Career Stages and Time Periods for Diversity Supplement applications:

Career Level*	Maximum Length Of support
High School	1 year
Undergraduate	1 or 2 Years
Post BA/BS	2 Years
Post MA/MS	2 Years
Pre-doctoral	2 Years
Post-doctoral	2 Years
Investigator	2 Years

*Although NICHD awards supplements for students through faculty career stages, priority is given to highly meritorious applications that request support for post BA/BS, post MA/MS, graduate students, postdoctoral fellows and established investigators who become disabled. Undergraduate applications must state the length of support requested at the time of application submission.

Please refer to [NICHD-specific Diversity and Re-Entry Supplement guidelines](#) for additional guidance.

National Institute on Deafness and Other Communication Disorders (NIDCD)

Scientific Contact:

Alberto L. Rivera-Rentas, Ph.D.
Research Training Officer
Division of Scientific Programs
Phone: (301) 496-1804
Email: riverara@nidcd.nih.gov

Grants Management Contact:

Christopher Myers
Phone: (301) 435-0713
Email: myersc@mail.nih.gov

NIDCD Specific Information:

See this link for additional application information:

http://www.nidcd.nih.gov/funding/types/pages/minority_disability.aspx

- NIDCD accepts applications on a rolling basis.
- The institution/university of principal investigator (PI) determines, justifies and certifies the eligibility of the candidate based on Notice of NIH's Interest in Diversity (<https://grants.nih.gov/grants/guide/notice-files/NOT-OD-20-031.html>).
- The PI of the NIDCD-funded award prepares the supplement application with input from the candidate. Typically, supplements are provided for one year, with a strong justification for a second year.
- The application must clearly describe the need for additional mentored research training.
- The research strategy section in the application must include the following subheadings:
 - Career development plan: The PI should include details of specific activities and milestones to be accomplished during the supplement duration. For predoctoral fellows, postdoctoral fellows, and medical students, a plan to transition to NIH mainstream research training and/or research funding should be provided.
 - Mentoring research plan: The PI should describe the specific activities planned for the candidate during the supplement period as well as a description his or her previous training and mentoring experience.
- For high school, undergraduate, postbaccalaureate, master's, and predoctoral students (including Au.D. and medical students), and postdoctoral fellows, the application should include a biosketch for the candidate using the NIH fellowship biosketch format (<https://grants.nih.gov/grants/forms/biosketch.htm>).
- The parent award must have an active budget that is at least equivalent to the duration of the requested supplement and should not be in (or go into) a no-cost extension.
- Typically, NIDCD allows 1 supplement per parent award to support 1 candidate. Possible exceptions will be considered for exceptional PIs and candidates with a strong justification and with support from the program official assigned to the parent award.
- Supplements are limited to candidates who are citizens or non-citizen nationals of the United States or to candidates who have been lawfully admitted for permanent residence in the United States (i.e., in possession of a Permanent Resident Card, Form I-551).
- Candidates supported on a research award (like an R01) may not be transferred to a supplement to increase the availability of funds to the parent award for other uses.
- Candidates may be temporarily supported by the parent award while the application is under reviewed.
- Discussions of the supplement request with the program officer assigned to the parent award are highly encouraged to make sure that the proposed project falls within the scope of the parent award.

National Institute of Diabetes and Digestive and Kidney Diseases (NIDDK)

Scientific Contact:

Robert C. Rivers, Ph.D.

Phone: (301) 443-8415

Email: riversrc@mail.nih.gov

Program Specialist Contact:

Christina Coriz

Email: corizc@nidk.nih.gov

Elizabeth Gutierrez

Email: gutierrezel@nidk.nih.gov

NIDDK Specific Information:

See this link for additional application information: <https://www.nidk.nih.gov/research-funding/process/apply/funding-mechanisms/administrative-supplements-research-grants/research-supplements-promote-diversity-health-related-research>

- Applications are reviewed at the end of each review month (from October through June). No applications will be reviewed in July, August, September, or December. Applications must be received before 5:00 PM local time on the 1st business day of the month for the application to be reviewed in the same month. Funding decisions will be made three times per year in January, April, and June.
- PD(s)/PI(s) are strongly encouraged to contact the NIDDK Scientific Contact for the Institute-specific application components, as well as receipt and review dates.
- PD(s)/PI(s) are strongly encouraged to contact the NIDDK Financial or Grants Management Contact for the Institute-specific funding salary allowances for postdoctoral candidates and Investigators Developing Independent Research Careers.
- The NIDDK limits support for candidates at all career levels to two years.
- The NIDDK will allow up to two supplements under a parent grant, under exceptional circumstances, when strongly justified. Each candidate will require a separate application, and acceptance of a second application to the same parent grant requires pre-approval by the NIDDK Scientific Contact.
- The NIDDK does not accept Research Supplement applications to R15, SC1, or SC2 awards.
- The NIDDK does NOT participate in the "Short-term Investigator Research Supplement."
- Because this program is not intended to provide an alternative or additional means of supporting individuals who receive support from PHS funding mechanisms, diversity candidates may not be transferred to supplemental support prior to the completion of their appointed period of their current PHS support. In addition, individuals may not be transferred to a supplement from a parent PHS award to increase the availability of funds to the parent grant for other uses.
- As per NIH Guide Notice NOT-OD-15-095 (available at: <http://www.grants.nih.gov/grants/guide/notice-files/NOT-OD-15-095.html>), the NIDDK reserves the right to administratively withdraw incomplete applications.

National Institute on Drug Abuse (NIDA)

Scientific Contact:

Angela Holmes, Ph.D.

Phone: (301) 827-2487

Email: angela.holmes2@nih.gov

Grants Management Contact:

Ericka Wells

Phone: (301) 827-6705

Email: wellse2@nida.nih.gov

NIDA Specific Information:

- Application receipt dates, procedures for preparing and submitting an application, guidance on budget proposals, as well as additional NIDA-specific information can be found at: <http://www.drugabuse.gov/about-nida/organization/offices/office-nida-director-od/odhd/instructions-to-principal-investigator>.
- Applications to be considered for funding during FY 2024, which ends September 30, 2024, will be accepted until May 9, 2024. Any applications received after this date will be reviewed the next fiscal year.
- PD(s)/PI(s) are strongly encouraged to contact the NIDA Scientific Contact for the Institute-specific application components, as well as receipt and review dates prior to applying.
- Diversity supplements are accepted on a rolling basis and will be reviewed during our review period, October-June. Applications received after May 9th will be processed and considered for funding in the next fiscal year (October 1st).
- In most cases, the diversity supplement start date will be the same as the parent grant fiscal year start date.
- Diversity supplements for center grants that support research subprojects (e.g., U54, P50) must fall within the scope of one or more active subprojects.
- At the time of the application, the parent grant should have at least 1 year of funding remaining for post-baccalaureate candidates/trainees, a minimum of 2 years of funding remaining for pre-doctoral candidates/trainees or 18 months of funding remaining for post-doctoral or early career investigator level candidates/trainees.
- Prospective candidates who are supported by an institutional Kirschstein-NRSA may not be transferred to supplemental support prior to the completion of their appointed period of their current PHS support. If the candidate is on a NIH-funded T32 at your current institution, they cannot start a diversity supplement until the end date the T32 appointment. They can apply for a diversity supplement in advance, but cannot terminate the T32 appointment early to start the supplement.
- Applicants are also encouraged to send an e-mail to the NIDA scientific contact alerting them to the submission of the application.
- It takes approximately ten weeks from receipt of the application in NIDA's Office of Diversity and Health Disparities until a funding decision is made therefore it is critical to apply early.

NIDA Supported Career Stages and Time Periods:

Career Level*	Maximum Length Of support	Research & Travel Support	Salary Support & Fringe Benefits
---------------	---------------------------	---------------------------	----------------------------------

Post-baccalaureate	2* years (Prior to the end of the first year of support it is recommended that the candidate apply to graduate school.)	\$3,000/yr	Consistent with applicant Institutional salary policies, but cannot exceed \$35,000/yr total for both salary and fringe benefits. Fringe benefits must be itemized in the budget.
Pre-doctoral students (including dual degree students)	3 years	\$4,000/yr	Consistent with applicant institutional salary policies, total compensation (salary, fringe benefits, and tuition remission) cannot exceed zero level NSRA postdoc stipend in effect at the time of appointment. Fringe benefits must be itemized in the budget.
Post-doctoral	2 Years	\$6,000/yr	Must be in accordance with the salary structure of the grantee institution, consistent with the level of effort, and may not exceed the maximum allowable NRSA stipend. level for postdoctoral fellows in effect at the time of appointment. Requested salary cannot exceed the NRSA stipend level listed for the number of years of experience in effect at the time of appointment. The number of years of experience as a post-doctoral candidate/trainee must be identified in the application. Fringe benefits must be itemized in the budget.
Early Career Investigator	2 Years	\$10,000/yr	Must be consistent with applicant Institutional salary policies, but cannot exceed \$85,000/yr in salary support. Early-career investigators must request at least 9 person months (equivalent to 75% effort) on the supplement project during each 12-month budget period. Application must include the early-career investigator's base salary and requested salary with effort level and fringe benefits costs. Fringe benefits must be itemized in the budget.

The diversity supplement can cover tuition costs up to the NRSA level for pre-docs at the parent grant university. Tuition remission is not available for other career stages.

National Institute of Environmental Health Sciences (NIEHS)

Scientific Contact:

Frederick L. Tyson, Ph.D.
Telephone: (984) 287-3334
Email: tyson2@niehs.nih.gov

Scientific Contact (Superfund Research Program):

Heather Henry, Ph.D.
Telephone: (984) 287-3268
Email: heather.henry@nih.gov

Grants Management Contact:

Clark Phillips
Telephone: 984-287-4037
Email: phillipscla@niehs.nih.gov

NIEHS Specific Information:

See this link for additional application information:
<https://www.niehs.nih.gov/research/supported/training/supplements/index.cfm>

NIEHS reviews supplement applications every other month.

FY 2024 Receipt Dates for Diversity/Re-entry Supplements:

Receipt Date	Earliest Award Date
December 1, 2023	February 2024 (FY24)
February 1, 2024	April 2024 (FY24)
April 1, 2024	June 2024 (FY24)
June 3, 2024	August 2024 (FY24)
October 1, 2024	December 2024 (FY25)

Annual Salary Cap for Investigators Developing Independent Research Careers: \$75,000 plus fringe benefits.

For applicants funded by the Superfund Research Program (SRP), the following career levels are eligible to apply: Baccalaureate and Master's Degree Holders, Graduate (Predoctoral) and Health Professional Students, and Individuals in Postdoctoral Training. SRP will provide up to two years of support.

The duration of support and allowability of costs depends on the candidate's career level, as well as the amount of time remaining on the parent award (excluding a no cost extension) and may be adjusted by the review committee. Requests may be up to \$50,000 Direct Costs per year. Only one supplement application submission is permitted per grant recipient per year. Please see this webpage for specific guidance:
<https://www.niehs.nih.gov/funding/grants/announcements/supplements/index.cfm>.

National Institute of General Medical Sciences (NIGMS)

Scientific Contact:

Applicants should contact the NIGMS Diversity Supplement Program co-Directors listed on the program webpage.
[NIGMS Research Supplement to Promote Diversity in Health-Related Research](#)
Email: NIGMS-DSP@nigms.nih.gov

Grants Management Contact:

Grace Olascoaga
Email: olascoag@nigms.nih.gov

NIGMS Specific Information:

See this link for additional application information:
<https://www.nigms.nih.gov/research/mechanisms/pages/promotediversity.aspx>

- Applications are accepted on a rolling basis between October 1 - May 31 in any fiscal year. Eligibility information, frequently asked questions, and additional NIGMS-specific information can be found at: <https://www.nigms.nih.gov/research/mechanisms/pages/promotediversity.aspx>. Information for the PD(s)/PI(s) of IDeA, SuRE, SCORE, and NARCH programs can also be found on this website.
- PD(s)/PI(s) are strongly encouraged to contact the NIGMS Scientific Contact for the Institute-specific application components, as well as receipt and review dates prior to applying.

National Institute of Mental Health (NIMH)

Scientific Contact:

Brittany Haynes, Ph.D.

Phone: 301-496-2767

Email: brittany.haynes@nih.gov

Grants Management Contact

Terri Jarosik

Phone: (301) 443-3858

Email: tjarosik@mail.nih.gov

NIMH Specific Information:

See this link for additional application information: <http://www.nimh.nih.gov/funding/training/diversity-and-reentry-research-supplements-for-nimh-grantees.shtml>

Applications may be submitted at any time. Investigators are encouraged to submit applications at least four months prior to the requested start date. Applications for summer-only research appointments are considered on a shorter timeframe and should be submitted at least 10 weeks prior to the requested start date.

Applications received after April 1 will be processed and considered for funding in the next fiscal year; that is, after October 1, with December 1 as the earliest possible start date.

The NIMH has developed specific practices for diversity research supplement requests that augment the requirements described in this program announcement. Therefore, consultation with the NIMH Office for Disparities Research and Workforce Diversity and program staff prior to submission of a request for a research supplement is imperative. Specific information about preparing diversity supplement applications for submission to NIMH can be found at: <http://www.nimh.nih.gov/funding/training/diversity-and-reentry-research-supplements-for-nimh-grantees.shtml>.

Annual Salary Cap for Investigators Developing Independent Research Careers: \$90,000 plus fringe benefits.

NIMH accepts and reviews administrative supplement applications on a continuous basis until April 1 of each fiscal year (FY). In accordance with NIH submission policies, when April 1 falls on a weekend, Federal holiday, or Washington, DC area Federal office closure (see NOT-OD-17-041), the application deadline is automatically extended to the next business day. Administrative supplement applications received after the April 1st submission date will **not** be considered for funding until the next fiscal year, unless specified otherwise in a NOFO. Earlier submission is strongly encouraged.

For further information see: <https://www.nimh.nih.gov/funding/grant-writing-and-application-process/administrative-supplements-to-research-grants-and-cooperative-agreements>.

National Center for Complementary and Integrative Health (NCCIH)

Scientific Contact:

Sekai Chideya, MD, MPH
Phone: (301)-827-1916
Email: sekai.chideya@nih.gov

Grants Management Contact:

Debbie Chen
Phone: (301) 594-3788
Email: debbie.chen@nih.gov

NCCIH Specific Information:

NCCIH accepts applications three times a year, due on November 1st, March 1st, and June 1st.

NCCIH recommends candidates to use the NIH Reporter Tool (<http://projectreporter.nih.gov/reporter.cfm>) to search for topics of interest and identify NCCIH-funded investigators.

Before submitting an application, candidates and mentor(s) are strongly encouraged to discuss their proposed supplement with the NCCIH Program Officer managing the parent award to confirm its relevance to NCCIH's mission (<http://NCCIH.nih.gov/about/ataglance>), research priorities (<http://NCCIH.nih.gov/grants/priorities>), and strategic plan (<http://NCCIH.nih.gov/about/plans>). A list of NCCIH program officials can be found at <http://NCCIH.nih.gov/grants/contact#area>.

NCCIH expects candidates to pursue and transition to mainstream NIH support as part of the proposed research-training plan. Applicants should explore NCCIH's research-training webpage (<http://NCCIH.nih.gov/training>) and review the programs that may fit their interests and academic credentials.

NCCIH will provide support to successful applicants for 1 year and will consider a 1 year renewal application depending on progress.

Office of Research Infrastructure Programs (ORIP)

Scientific Contact:

Stephanie Murphy, VMD, PhD
Office of Research Infrastructure Programs
Telephone: 301-451-7818
Email: stephanie.murphy@nih.gov

Grants Management Contact:

Sabrina Oasan
NHLBI, ORIP Team
Email: sabrina.oasan@nih.gov
Phone: 301-443-9123

ORIP Specific Information:

ORIP will accept supplement applications for the following activity codes: **R01, R21, R24, P40, P51, U42, U54.**

The duration of the diversity supplement must be at least 12 months. Requests submitted with less than 18 months remaining on the parent grant period will not be accepted.

Program Directors/Principal Investigators (PD/PIs) planning to submit applications to this FOA are strongly encouraged to contact their respective program officer and/or the scientific contact prior to the submission. Annual Salary Cap for Investigators Developing Independent Research Careers: Contact ORIP staff. For additional information please go to: [ORIP Diversity Supplement Guidelines](#).

National Center for Advancing Translational Sciences (NCATS)

Scientific Contact (Division of Clinical Innovation):

Andrew Loudon, Ph.D.
Phone: (301) 402-1645
Email: andrew.loudon@nih.gov

Scientific Contact (Office of Drug Development Partnership Programs):

Steve Pittenger, Ph.D.
Phone: (301) 827-5810
Email: steven.pittenger@nih.gov

Scientific Contact (Office of Special Initiatives):

Doda Rudnicki, Ph.D.
Phone: (301) 594-2080
Email: dobрила.rudnicki@nih.gov

Grants Management Contact:

Leslie Le
Email: leleslie@mail.nih.gov
Phone: 301-435-0856

For investigators developing independent research careers this supplement will provide up to and no more than \$100,000/year for salary, plus fringe benefits. See terms and conditions in the FOA.

Specific information for the Clinical and Translational Science Award (CTSA) Program:

The CTSA Program will accept supplement applications to active CTSA Program UL1-Linked Specialized Center Cooperative Agreement grants. Institutional Career Development Core (KL2) Training Core (TL1) programs are not eligible, however, the Program Director/Principal Investigator (PD/PI) of these programs and/or the mentor(s) of the candidate can work with the UL1 PI to apply. Supplements to CCIA grants will not be considered.

NCATS will accept up to two applications for review consideration during a fiscal year from any one CTSA Program hub award.

Grants must have at least two years remaining to apply for a supplement. Budget may not exceed \$150,000 per year in direct costs.

For CTSA Program specific information and guidance on submitting applications see: <https://ncats.nih.gov/ctsa/funding/pa-2016-guidance>. For CTSA Program Specific FAQs for Diversity Supplements go to <https://ncats.nih.gov/ctsa/funding/diversity-faq>.

Short-term Investigator Research Supplements may be requested but must span across at least two years of support.

NCATS Specific Information:

Prospective applicants and their mentors are strongly encouraged to contact their respective NCATS program officer and/or the scientific contact listed in this opportunity during the initial preparation of a supplement application and prior to its submission to discuss the goals and objectives of the supplement application.
